

Austin Child Guidance Center provides high-quality mental health services for children and families. Updated service fees are effective September 1, 2022. If you have any questions about these fees, please call our Revenue Cycle Manager at 512-451-2242. We look forward to serving your family.

No one is turned away due to being unable to pay. We offer a sliding fee scale. Survivors of crime may receive therapy services at no cost. Services provided at no-cost are covered by grants and fundraising activities.

*ACGC does not usually take part in the legal process. But, if ACGC is required to be involved in court matters, the fee is \$265/hr.
